dangerous reefs extending off it, so close to the land that it allowed no margin for rectifying an error in steering which in this case appears to have been the chief and only principal cause, which brought about the accident.

—That the Master therefore committed an error of judgment in taking the ship too close to the land when no tangible advantage could be derived from his so doing, and no reason existed for not keeping the full distance recommended above 500 fms. China Sea Directory, which reads as follows:—When bound to Wei-lai-Wai (Wai-wei), in the eastward, after rounding the Shantung Province, and giving Alveo Island a berth of one-half, etc.

5.—That after the accident the behaviour of the Master, Officers and crew was in the highest degree commendable, and that the saving of the ship and of the lives on board was in a great measure due to Captain Tisdall's prompt action in beaching the vessel, thereby avoiding what might have been a fatal marine catastrophe.

6.—That the crew of the vessel, in the opinion of the Master, were in some cases not to be blamed, but rather were in the action of the quarter master, when he acknowledged to have been a bad steersman, the more especially as he admits in evidence that he considered the vessel to be too close to the land.

7.—That the evidence of the captain and the two crewmen shows that the master of the vessel, in his opinion, did not exercise his right to be informed of their duties and it is recommended that the manager of the Company establish some system by which men shall be allowed to be employed as quarter-masters for their steamers, but men with certified discharges.—Counsel.

#### THE SECRET SOCIETY CASE IN SARAWAK.

##### SIX LEADING SHIPS.

The Straits Times' Sarawak correspondent writes:—The case of the Chinese prisoners, accused of being members of an active Secret Society in Sarawak, was tried by a Special Court appointed for this purpose, and consisting of four European, four Malay, and four Chinese members. The enquiry was commenced on the 5th instant, and finished on the 9th instant, on which day the trial was adjourned to the 12th instant, when the manager of the Company was committed to His Highness the Rajah.

The finding of the court was as follows:—

1.—That there is no evidence in Sarawak in any branch of the Chinese Chin Hui or Sam-Fian Chinese Secret Society.

2.—That 6 of the prisoners (Hua Chin Chong, Wong Yu Sam, Chong Chin Hui, Chong Tien, Quan Chiang, Ah Man, Chok Jea and Ah Nyat) are active agents of the society, carrying out the orders of the leaders, bating, frightening, or murdering no members.

3.—That 11 of the prisoners (Lyu Chun Quon Kee-Sing, Chow Yu Peng, Keng Sung, Yong Sung, Chow Ah Hui, Chin Tien, Quan Chiang, Ah Man, Chok Jea and Ah Nyat) are active agents of the society, carrying out the orders of the leaders, bating, frightening, or murdering no members.

4.—That 7 of the prisoners (Bong Kiong Jea, Chong Ah Man, Chok Jea, Chin Lee Hui, Ah Siong, Chang Boi Kwee, and Gau Tien) are merely members, and as far as is known, there is nothing further against them.

On Monday, the 12th inst., the Supreme Court was convened by His Highness the Rajah for the purpose of passing sentence on the prisoners. There were present, accommodated with seats on the bench, a large number of the leading Malayan and Chinese leaders of Sarawak. The body of the Court and the members of the approaches were densely packed with natives. The prisoners occupied three benches in the centre of the Court, and were under a strong guard of Polis, whilst the back and sides of the Court were lined by a detachment of the Sarawak Rangers.

At eight the Rajah entered the Court house, which opened at 9 a.m., and at once opened the proceedings. He then addressed all present, giving a short account of the conduct of the prisoners and the motives which led to their arrest, the state of the law of this country as regards Chinese Secret Societies, and the impartial method (mixed composition) by which these prisoners had been tried. He gave the past history of Secret Society work in Sarawak, and expressed his intention, for the good of the country and population, both Malay and Chinese, of stamping out all such and illegal combination in his dominions, a combination which, from papers said, was known to have been, when strong enough, the murder of all who did not wear a "Touchang." The prisoners were then called up; the decisions of the "Court of twelve" as regards their guilt were then interpreted to them, and, separately, each was asked if he had anything further to say. The answers were, mostly to the effect that they had nothing to do with the matter with which they were charged. His Highness then pronounced the following sentences:—

(a.) That 6 of the prisoners (names above) having been found to be leaders of the society, should be shot at 8 a.m. on the next day (13th). (b.) That 11, being active members and agents, should receive six days strokes with a bare hand on their heads, should be imprisoned during His Highness's pleasure, and be branded with the letter S. on the hand, and that no release they should be granted for ever from Sarawak.

(c.) That the remaining seven prisoners, being members only, if they would swear in their temples to have no further dealings with the society, and would give up any documents in their possession relating to the society, should be released. If not all or any one should be dealt with as the foregoing.

The prisoners were then marched back to jail.

SENSES CARRIED OUT.

The sentence of execution was carried out on the 13th at 8 a.m. on the usual execution ground. The firing party consisted of 20 Sarawak Rangers, and death was certified by the Royal Medical Officer.

The shooting was carried out partially by giving each man two shots, and 3 does within the precincts of the jail on the same day. The remaining seven, and the rest of the sentence will be carried out when the health of the prisoners will allow of it.

The prisoners were then marched back to jail.

THE AUSTRALIAN MAIL.

The C. N. steamer Chingin, with Australian mails and advice from Sydney to 8th inst., arrived here yesterday morning. The following items are taken from Australian papers:—

THE COPPER MARKET.

The Standard declared that the present firmness in the copper market is likely due to statements that a French syndicate had entered into a new basis of operations. The North American Tharain Copper Company is, in paper assets, clearly outside the ring, if one exists.

PROPOSED COLONIAL CONFERENCE.

LONDON, 2nd August. Lord Salisbury has informed the Earl of Rosse, President of the Imperial Federation League, that it would be inexpedient for the Government to nominate a Commissioner in London of the Australian colonies on the question of the federation of the Empire. Under the Cabinet were prepared with recommendations on the question, the intervention of the Government might give rise to misapprehension. Lord Rosebery replied that neither Canada nor Australia would be likely to be asked to state that a French syndicate had entered into a new basis of operations.

The North American Tharain Copper Company is, in paper assets, clearly outside the ring, if one exists.

THE DERNIER INVOCATION.

LONDON, 5th August. Further details of the defeat of the Dervishes near Toksi Kai that General Sir George Greville captured 1,040 prisoners, and 1,000 weapons and 200 guns. The remnant of the Dervishes were driven into the desert, and will probably die of hunger and thirst.

Sir George Greville's loss was 17 men killed and 180 wounded. He has decided to occupy the British and Egyptian troops are returning to Cairo, as the invasion by the Dervishes is virtually ended.

GENERAL EDWARDS AT MELBOURNE.

MELBOURNE, 4th August. The military force of the colony mustered yesterday at Albert Park for inspection by General Edwards. Military etiquette standing, the men of the naval forces being reviewed by a naval officer, the naval brigadiers did not turn out. About 3,000 men were on parade, including some 600 cadets. There was a slight change in the formation, and in the afternoon, the official inspection and march past took place.

At the close of the day Major-General Edwards addressed the Commandant his pleasure at what he had seen.

#### ANOTHER MASSACRE IN THE PACIFIC.

BRISBANE, 2d August. Arthur Thompson, the Government Agent of the labour schooner "Archimedes," which has been captured from the Pacific Islands, has reported to the Inspector of the Pacific Islanders that a terrible massacre had taken place at Malaya about the 24th July. Thompson states that on the 13th July they were off Java and sawing the "Archimedes" at anchor were about 100 fms. from Captain Turner. The "Archimedes" was a small trading vessel, left for Hawaiki, and was owned by Mr. Kesting, the owner of "Glenelg," the mate, Mr. Cooper, of "Marion Sound," and three others. They were friendly, the whites never thought they had hostile intentions. At a given signal, a native, picking up a revolver which Laddie had just removed from his belt, shot Laddie dead. At the same time another native cut Cooper's throat, and another, a Seaman, shot Kesting. They left the vessel, and the natives left the vessel. They then got under weigh as soon as possible, and sailed for Hawaiki. Although severely wounded, they arrived safe. It is estimated that 12 natives were killed in the fight. Kesting buried the bodies of the two men lost at Hawaiki. When Captain Turner left Hawaiki, Kesting and the natives had been wounded, and had been treated by a native, who had also died. The "Archimedes" had fair weather and moderate winds, and arrived at Dangerous on the 24th July.

SIR W. MACREGOR'S RESEARCHES IN NEW GUINEA.

BRAZILIA, 8th August. A large number of rare, and, up to hitherto unknown, botanical, entomological, and other specimens, collected by Sir William Macgregor during his recent explorations in New Guinea, have been brought by him to Brisbane and submitted to various experts for classification. The flora obtained have been sent to the Royal Botanic Gardens. Some very rare and little known birds shot during the expedition have been submitted to the curator of the Royal Museum of Sydney. Sir William Macgregor, who collected, but was unable to undertake the task, owing to the state of his health. It is understood that Sir William Macgregor's report of the results of the work of Owen Stanley has been submitted to the Government, and will be placed in the hands of the Government, and to the Royal Australian Geographical Society for general information.

MISCELLANEOUS ITEMS.

LONDON, 24th July. The Postmaster-General (Mr. Railton) has decided to introduce on a one-penny postage stamp, which will be mainly used for communications with the Australian service. The stamp on the card will be a full-size portrait of Her Majesty the Queen as she appeared in the robes which she wore on Jubilee day.
